CONTRACT LABOR CATEGORY DESCRIPTIONS

PROFESSIONAL AND ALLIED HEALTHCARE PROGRAM MANAGEMENT

Public Health Microbiologist Manager

Functional Responsibility: Manages and supervises the staff assigned to work assignments in development and implementation of enterprise-wide, high level or large scale contract programs with focus on health / clinical care. Responsible for all aspects of the assigned staff to include planning and leading major medical or scientific work assignments, accuracy and timeliness of deliverables and meeting performance standards. Responsible for keeping abreast of technological changes in laboratory testing and evaluates the effectiveness and feasibility of new products, systems, and protocols. Makes recommendations regarding changes to policy, procedure, and protocol to Supervisor. Plans, assigns and reviews the work of staff, identifying training needs and develops training for staff. Evaluates performance results and recommends major changes affecting project growth and success. Functions as a technical expert to staff and clinical laboratories regarding interpretation of laboratory tests and proper laboratory procedures. Reports to a Public Health Microbiologist Director. Provides direction and supervision to other medical/clinical staff.

Minimum/General Experience: This position requires a minimum of eight years experience, of which at least four years must be specialized in management and supervision of projects with focus on health / clinical care.

Education: PhD, MS or equivalent experience in microbiology, epidemiology, or related field.

PROFESSIONAL AND ALLIED HEALTHCARE STAFF

Epidemiologist

General Description: Investigate and describe the determinants and distribution of disease, disability, and other health outcomes and develop the means for prevention and control. Collecting, documenting and validating requirements throughout any given project lifecycle and interfacing with medical/scientific professionals to assure solutions meet and exceed business needs/requirements.

Levels Offered: II, III, IV

Microbiologist

General Description: Identify, isolate, study and investigate the growth, structure, and other characteristics of microscopic organisms. Include medical microbiologists who study the relationship between organisms and disease or the effects of antibiotics on microorganisms.

Levels Offered: I, II, III, IV, V

Laboratory Assistant

General Description: Conduct research or perform laboratory and field tests for the purpose of identifying, abating, or eliminating sources of pollutants or hazards that affect either the environment or the health of the population. Such data may be collected from laboratory field collectors. Other duties may include cleaning, disinfecting and maintaining cleanrooms and equipment. May assist with receipt and inspection of raw materials, ordering and stocking.

Levels Offered: I, II, III, IV

Laboratory Technician

General Description: Planning, designing, and analyzing data requirements within scientific/medical laboratories; integrating various platforms and/or environments within the lab; networking, processing data transfers, designing instruments. May include the set-up, operation and performance of routine maintenance on laboratory equipment. Laboratory work for this position is performed in a microbiology laboratory under either BSL 2 or 3, as appropriate. The samples may contain highly lethal pathogens. Staff shall follow all biosafety and biosecurity guidelines related to the testing program. This position places the incumbent at risk of potential exposure to Hepatitis B, as well as other pathogenic microbes and viruses.

Levels Offered: I, II, III, IV

Level	Knowledge/Skill Description
I - Entry-Level	Applies fundamental concepts, processes, practices and procedures on technical, medical, or scientific assignments. Performs work that requires practical experience and training. Work is performed under supervision. Education: Entry-Level, limited or no experience.
II - Journeyman	Possess and applies expertise on multiple complex work assignments. Assignments may be broad in nature, requiring originality and innovation in determining how to accomplish tasks. Operates with appreciable latitude in developing methodology and presenting solutions to problems. Contributes to deliverables and performance metrics where applicable. Work is performed under supervision. Education: BS or equivalent experience.
III - Intermediate	Possess and applies expertise on multiple complex work assignments. Assignments may be specific in nature, but may require originality and innovation in determining how to accomplish tasks. Operates with appreciable latitude in developing methodology and presenting solutions to problems. Contributes to deliverables and performance metrics where applicable. Work is performed under high level supervision. Education: MS, BS or equivalent experience.
IV - Senior	Possess and applies a comprehensive knowledge across key tasks and high impact assignments. Plans and leads major technology, medical, or scientific assignments. Evaluates performance results and recommends major changes affecting short-term project growth and success. Functions as a technical, medical, or scientific expert across multiple project assignments. May supervise others. Education: PhD, MS or equivalent experience.
V - Master	Provides management leadership on major tasks or work assignments. Establishes goals and plans that meet project objectives. Has domain and expert technical, medical, or scientific knowledge. Directs and controls activities for a client, having overall responsibility for financial management, methods, and staffing to ensure that contractual requirements are met. Interactions involve client negotiations and interfacing with senior management. Decision making and domain knowledge may have a critical impact on overall project implementation. May supervise others. Education: Doctoral/Medical degree, PhD or equivalent experience.

EDUCATION AND SPECIALIZED EXPERIENCE SUBSTITUTIONS

If the minimum educational requirements have been exceeded for the labor category knowledge and skill descriptions, years of required experience may be waived as followed:

- Associates degree - one (1) year of experience
- Bachelor's degree - two (2) years of experience
- Master's degree - four (4) years of experience
- PhD - five (5) years of experience

For the above labor category knowledge and skill descriptions, the additional years of specialized experience may be substituted for educational requirements as followed:

- Associates degree – two (2) years of specialized experience
- Bachelor's degree - four (4) years of specialized experience
- Master's degree - six (6) years of specialized experience
- PhD – ten (10) years of specialized experience.
